INDIA FENCE EXPO

10 – 12 September, 2026

Yashobhoomi,
Dwarka, New Delhi

SHOW PREVIEW

India's Premier Expo for
Fence & **Perimeter** Security

www.fenceexpo.com

A-1 FENCE

Fence & Fence-ability

For over 25 years, A-1 Fence has engineered certified, future-ready perimeter security solutions that combine robust fencing with intelligent detection technologies. With operations across India, Saudi Arabia, the UAE, Oman, the United States, and the United Kingdom, we protect critical infrastructure and diverse environments through engineering excellence, quality manufacturing, and continuous innovation—delivering smarter, stronger, and more resilient perimeter protection.

INDIA FENCE EXPO

10 – 11 – 12 September, 2026 | Yashobhoomi, IICC, Dwarka, New Delhi

www.fenceexpo.com

CP PLUS

India's largest & most trusted surveillance brand, CP PLUS offers the biggest range of STQC-certified IP surveillance systems & the widest range of government-approved, cyber-secured IoT-powered solutions in India. Proudly aligned with the Make-in-India initiative, CP PLUS established its manufacturing facility in Kadapa, AP & an R&D Hub in Noida. Present in 450+ towns, CP PLUS delivers cutting-edge surveillance closer to Indians & has been actively involved in various training initiatives for Skill Development & Capacity Building in the security industry. CP PLUS is also India's foremost & only listed company in the surveillance industry - taking a tremendous step for the safety & security of Indians.

ASSOMAC - WORLD WIDE PARTNERS TO WIRE INDUSTRY

Assomac Machines Ltd. India based company is a known name now in manufacturing plants & machines for making wire, cables & other related machinery. We develop & manufacture machines according to our customer's requirement & are catering successfully to the requirement of Large, Medium & Small Scale Sectors of this industry across the globe. Assomac is ready in absorbing the new technologies rapidly to meet this growing market in India as well as evolving global standards for efficiency & sustainability.

Customers remember us because they trust us & they have faith in the quality & technology of our product. We have our own R&D facility which maintains strong technological advances from time to time. We always strive for ongoing technological improvements in our machines. This helps us to provide our customers with advanced solutions to meet & even exceed their requirements. In past Assomac has created its own history in the domestic sector in supplying many high value added Stainless Steel Wire Plants, MIG Wire Plants, Galvanizing Plants, Wire Mesh Plant etc. which are running trouble free. Recently the trend has changed in Wire Industry towards investing in new & more modern machinery, this has helped us to get more market share.

AYAM WELDMESH

Founded by Mr. R.K. Gupta in the year 2000, Ayam Weldmesh today has a large network of industrial clients who trust Ayam`s quality product range.

Over a period of 25 years, Ayam has developed a good relationship with Indian companies requiring Welded Wiremesh and has time and again proven to be a leader in quality as well as on time delivery of materials.

We are leading Manufacturer of **G.I Wire Mesh, M.S. Wire Mesh, S.S. Wire Mesh, TMT Wire Mesh and Chain Link Fence**. Apart from the above, we have vertically diversified into drawing of MS Wire as well.

As an acknowledgment of this, we hold the privilege of being an **ISO 9001:2015** certified organization.

Our products are crafted in a mix of indigenous machinery by highly skilled and expertise engineers, with a very strict quality control through in-house processes.

With years of experience and perseverance, we have sculpted an eminent place for ourselves in domestic market as a prominent Wire Mesh manufacturer.

CAMWELL
SECURITY SOLUTIONS

At Camwell Industries Pvt. Ltd., we are committed to safeguarding boundaries with cutting-edge solutions. As a leading provider of border fencing systems for high-security areas, national borders, and military bases, we combine innovative design with world-class security standards to protect the most sensitive locations.

Our comprehensive range of fencing solution includes: High-Security Border Fencing: Engineered to withstand extreme environmental conditions, our border fences offer impenetrable protection, ensuring the integrity and security of national borders. Specialized Fencing for High-Security Zones: From military bases to restricted areas, our fencing solutions are tailored to meet specific security needs with a focus on durability and resilience.

Perimeter Protection for Prisons: We provide robust and reliable fencing systems that deliver maximum containment and safety for correctional facilities.

Advanced Technology: Our border fencing solutions integrate the latest technology, offering not only physical barriers but also intelligent monitoring capabilities.

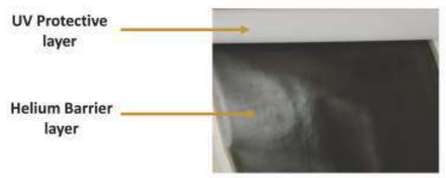

DRDO Industry Academia - Centre of Excellence (DIA - CoE)
Indian Institute of Technology Delhi (IIT Delhi)

High Performance Hull Materials for Aerostat

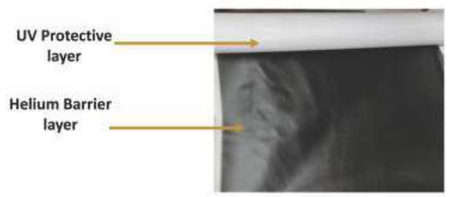

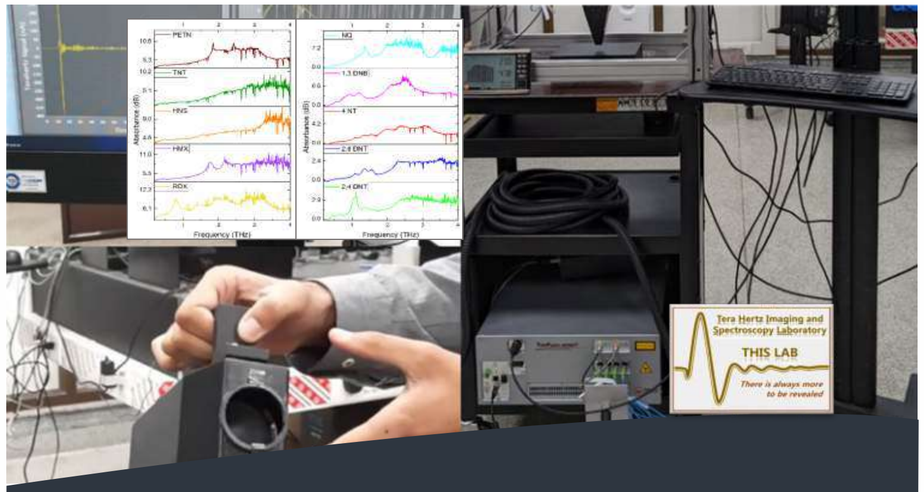

Indigenously developed, light weight, enhanced helium barrier and UV protective hull materials for Aerostat application. The Innovated design has low Areal density (295 g/m^2), excellent Helium Retention (Helium leakage rate <0.25 L/m^2/day), high Breaking Strength (400 kgf/5cm), good Tear Strength (48 kgf), and a Long Life (estimated 5 years). The present solution will allow an Aerostat to carry more payloads, will require less refilling of helium gas, and will have a longer life.

Aerostat Hull Fabric 2 [Code: MTRVCCL]

Aerostat Hull Fabric 1 [Code: MTRNYCL]

The THRED Platform is an indigenously developed mobile explosive/chemical detection system weighing about 35 kg: a commercial THz spectrometer (bottom right hand) is connected to indigenously designed and fabricated lightweight handheld scanner (bottom left hand) by a 10 meter long umbilical. Scanner heads can sense the threat in real time without touching the target and are modular (switchable as per the application requirement); such as, proxinmal (scans from 4 cm away from target), stand-off (50 cm away from target), hydration and roughness sensor etc.

Terahertz Handheld Remote Explosive/Chemical Detector (THRED) Platform

- ✓ **Dynamically Upgradable Functionalized Data Library**
- ✓ **Low-power, Modular, Fiber-coupled, NO need of reagents, Long-shelf-life**
- ✓ **Dual-use Technology: Platform is useful in many Civil Applications**
- ✓ **Indeginously developed handheld sensor with guide laser weighs only 1.5 kg**

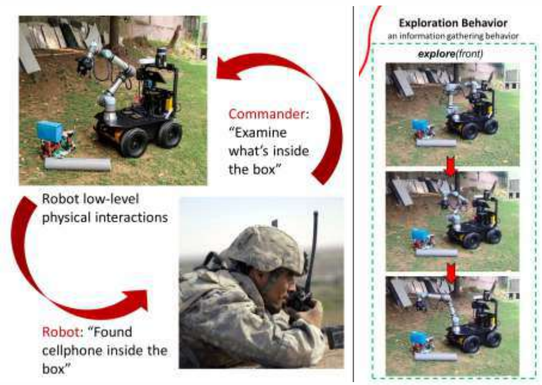

Experimental Results and Evaluation

Development of a Cognitive Model for an Intelligent Robotic Teammate

Platform Indigenization

GABTEC

GABTEC is a leading manufacturer of gabion, fencing and geotechnical solutions, offering a specialized range of PVC-coated GI wire, gabion systems, rockfall netting and honeycomb double-twist mesh. Our products are engineered for strength, durability, corrosion resistance and long-term performance, serving infrastructure, construction, erosion control, slope stabilization, rockfall protection, agricultural, industrial and perimeter security applications.

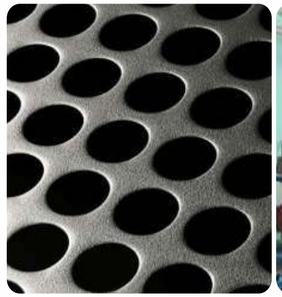

EASTERN WELDMESH PVT LTD

ISO 9001 Certified Company

India's Leading Manufacturer of Wiremesh and Spares

It is our pleasure to introduce Eastern Weldmesh Pvt. Ltd., a trusted name in the Wire Mesh and Fencing industry with over 50 years of experience. We offer 60+ quality products, including Smart Fences, Anti-Climb Fences, Welded Wire Mesh, Perforated Sheets, and customized fencing solutions. With a modern manufacturing facility in Liluah, Kolkata, we proudly serve leading organizations across India and overseas.

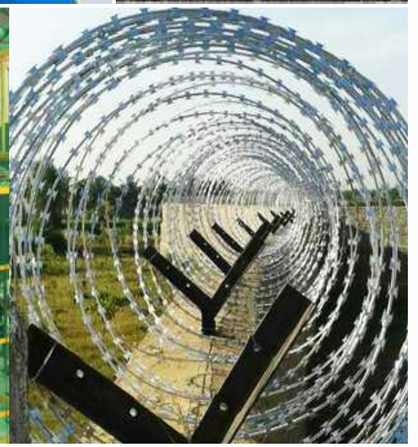

INDIA FENCE EXPO

10 – 11 – 12 September, 2026 | Yashobhoomi, IICC, Dwarka, New Delhi

www.fenceexpo.com

H D WIRE (P) LTD

HD WIRE (P) LTD – We Just Don't Draw Wires, We Draw Customer Satisfaction

HD Wire (P) Ltd is a trusted and leading **manufacturer, supplier, exporter, and trader of galvanized and high-quality steel wire products**. Established with a vision to deliver strength, reliability, and innovation, the company has become a preferred choice across sectors such as **construction, agriculture, infrastructure, power, and industrial applications**.

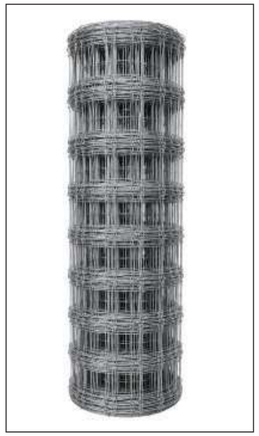

With state-of-the-art manufacturing facilities and a strong focus on quality control, HD Wire (P) Ltd ensures every product meets **international standards of performance and durability**. Our dedicated R&D and QC teams continuously strive to enhance product quality and introduce advanced solutions for customer needs.

Our Product Range: GI Wire (Galvanized Iron Wire), Chain Link Fence, Knotted Fence, Barbed Wire (Taj & Gold), Binding Wire, Weld Mesh (GI & MS), 3D / 2D Fence Panels, Rope Wire, Cable Armour Wire & Strips, High Carbon Steel Wire, Mattress Spring Wire, Spring Steel Wire

Our Commitment : At HD Wire, we believe in more than just manufacturing wires — we believe in building **trust, durability, and customer satisfaction**. Our products are designed to **protect, connect, and strengthen** the world around us.

INDONET

Do more. Be more. | GROUP

We, INDONET, are a manufacturer of extruded plastic netting and geosynthetic products based in Vadodara, Gujarat, India since 2007.

Indonet Group has all kinds of plastic fencing products like Hexagonal fencing nets, Square fencing nets, Diamond fencing nets, Lattice fences, Garden Border Fences, and Grass Reinforcement mesh, expanding their wings by adding new fencing product lines for picket fences.

JAYPEETEX
.... Simply Innovative

Established in 1975, Jaypeetex Engineering Pvt. Ltd. is a trusted provider of integrated electronic security, surveillance, and smart infrastructure solutions.

We design, supply, install, integrate, and maintain systems including Electric and Solar Power Fencing, AI-Enabled CCTV, VMS Analytics, Access Control, Biometrics, ANPR, and Integrated Command & Control Centres.

Serving industries, institutions, and critical infrastructure since 1995, we combine engineering expertise, innovation, and customer-focused service to deliver scalable, future-ready solutions that protect people, assets, and businesses.

Jaysons Group

Excellence in Manufacturing, Exceeding Expectations

Jaysons Exports Jalandhar,India is a manufacturer Exporters of Fence Fittings and Gate Hardwares for Chain Link Fence since1983 and have been exporting to North and South Americas, Australia and South Africa since over 30years.Our prolific thirst for quality leads to the pursuit of 'zero defect' products.Our consistent efforts to upgrade and uphold timely deliveries have received commendable appreciation from our valued customers around the globe.

We also design,develop and manufacture customized products for our overseas buyers.

MAGAL SOLUTIONS
Integrate to Innovate

Smart & Intelligent Fencing:
Perimeter Security Solutions

MAGAL SECURITY SYSTEMS (INDIA) LTD. (Formerly known as Veecon Magal Security Systems Ltd), is a leading provider of integrated security solutions, specializing in protecting critical infrastructure across India and internationally. Magal Security Systems (India) Ltd. offers a comprehensive suite of security products and services.

In today's dynamic security environment, Smart & Intelligent Fencing blends traditional barriers with **cutting-edge sensors, cameras, software, and analytics**. This combination offers not only strong physical deterrence but also **real-time detection, alerting, and situational awareness** — enabling faster, smarter responses to potential threats.

Smart & Intelligent Fencing is the answer — a fusion of physical infrastructure with advanced sensing, surveillance, and analytics.

The New Standard: Smart & Intelligent Fencing
Unlike conventional fencing, smart fencing incorporates a network of technologies designed to detect, analyze, and respond to threats in real time.

Manu International

Since 1978

We "**MANU INTERNATIONAL**" are one of the largest manufacturer and exporters of fencing (Airport Perimeter Fencing, Chainlink Fences, Highway fences, Stadiums and Farms, Border fences, Temporary fence panels), since last 50 years. Manu international has become the natural source of preference in India, USA, Canada, Caribbean Countries and The Middle East. We are long standing members of American Fence Association, and are a IS0 9001:2015 company.

All products are manufactured in our Modern Facility Located on an estate of 30 acres in North India. You can also visit our website www.manuinternational.com to have a glimpse of our current products.

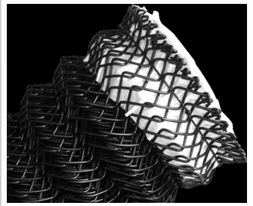

Our manufacturing facilities include Sheet metal fabrication, Fabrication (Welding & Fitting)- Mild Steel/ Aluminum / Stainless Steel, large press shop, Hot dip Galvanizing, Electroplating, Powder coating (Small products , Long Products up to 24ft), PVC Co Extrusion, Bar Drawing, Thread Rolling, Wire coating, Chain link weaving and other wire products processing include.

We can also do a wide variety of customized fabrication jobs including Roof trusses, prefabricated Sheds, pressed sheet metal item, threaded bars, wire products, Razor wire, nuts and bolt.

INDIA FENCE EXPO

10 – 11 – 12 September, 2026 | Yashobhoomi, IICC, Dwarka, New Delhi

www.fenceexpo.com

METALOFT

METALOFT is a leading manufacturer of high-quality custom sheet metal products, providing comprehensive metal fabrication and finishing solutions for both domestic and international markets.

We specialize in the design and manufacture of custom-made sheet metal products, including but not limited to metal cage pallets, clamps, hinges, bands, post caps, chain link fence fittings, angle bars, tubes, pipes, fasteners, carriage bolts, hex bolts, U-bolts, nuts, and washers. Our products are widely used across diverse industries such as fencing, construction, solar energy, fiber optics, logistics, and more.

At METALOFT, we are equipped with advanced facilities and expertise to deliver superior Hot-Dip Galvanizing, Powder Coating, and Electroplating services, ensuring exceptional durability and corrosion resistance.

Driven by quality, precision, and customer satisfaction, METALOFT takes pride in offering tailor-made metal solutions that meet your exact specifications and standards.

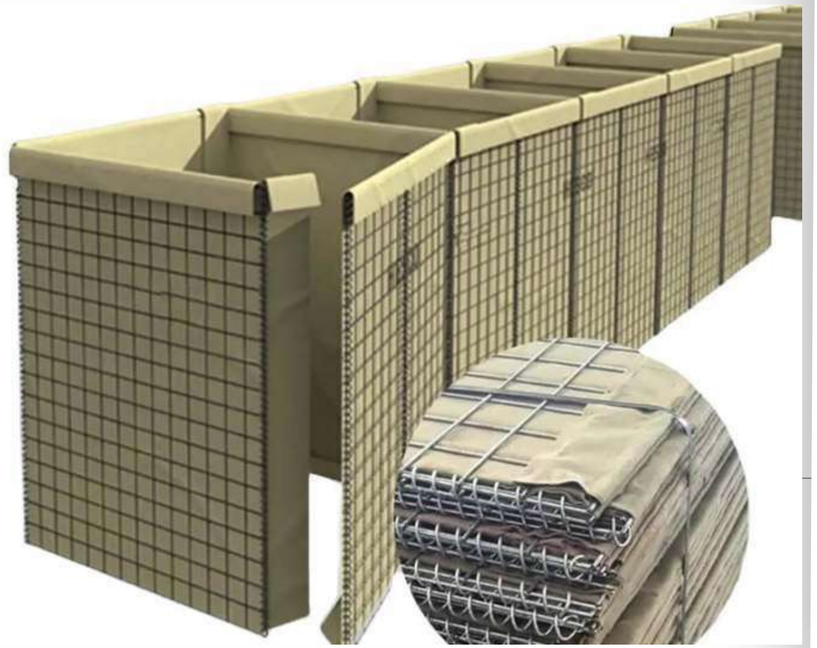

FENCE

MV Fence, the perimeter security brand of Maa Vishla Industries LLP, is an Indian manufacturer and turnkey solutions provider specialising in high-performance perimeter security systems. Established in 2016, MV Fence has delivered 500+ projects, including international borders, defence establishments, industrial facilities, airports and critical infrastructure.

With a 1,00,000+ sq. ft. integrated manufacturing facility, MV Fence offers end-to-end solutions spanning high-security fencing, anti-climb systems, gates, concertina coils, perimeter intrusion detection and related security infrastructure.

Group Nirmal (Nirmal Wires Pvt. Ltd.) is an established manufacturer of world-class steel wires with an annual production capacity of 2,16,000 metric tonnes, operating through seven state-of-the-art manufacturing facilities with 50+ years of legacy, 2000 cr+ turnover, business in 40+ countries providing high-quality wire and steel products - galvanized steel wires, aluminum wires, zinc wires, conductors, power cables, fencing solutions, electrodes, and rolled steel.

Niznal is among the path breaking product innovations with zinc-aluminium alloy coating that delivers outstanding corrosion resistance and can offer up to six times longer life than conventional wires.

Our Fencing solution product range varies from Barbed wire, Chainlink, PVC coated wires, PVC coated chainlink Fence, PVC coated Barbed wire.

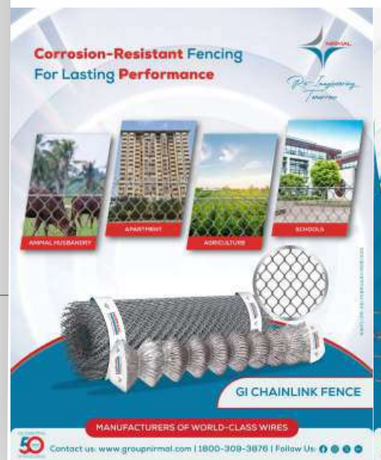

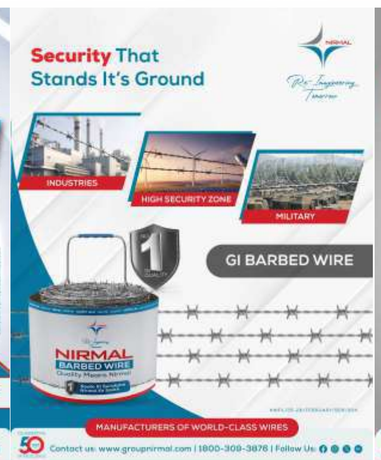

REMCOM - Remcon Security specializes in engineered perimeter defense systems and high-security physical barriers. The company manufactures heavy-duty security solutions including anti-ram crash bollards, automated boom barriers, tire killers, road blockers, and perimeter fencing networks.

Engineered for high-risk infrastructure, military installations, and commercial properties, Remcon Security delivers robust access control, physical threat mitigation, and automated perimeter safety systems designed to safeguard critical assets and high-traffic facilities against unauthorized entry.

SECURE®
FENCING
PERFECT MACHINES

Secure Fencing Machine is India's No.1 fencing manufacturing company, backed by 50+ years of industry experience. Founded as Mahaveera Wirenetting Industries in 1975, the company is now led by Mr Sunil Jain and his sons, Vasu Jain (CEO) and Chirag Jain (Head of Strategy).

Secure Fencing offers reliable, high-performance solutions across fencing needs. With 2,400+ machines installed across 500+ cities and 14+ countries, the company combines engineering, innovation and service to help businesses grow.

SECURE® FENCING

SECURE MACHINES AND AUTOMATION PVT. LTD.

New Delhi | Abu Road | Chennai

Secure Machines and Automation Pvt. Ltd. is India's leading supplier of advanced Wire & Fencing Machinery. With years of experience and a strong presence across India, we specialize in machines that combine high productivity, low operating costs, and reliable performance.Our Vision is to establish ourselves as a global leader in Wire & Fencing Technology. Our Mission is to empower businesses with innovative and efficient machines that drive growth and long-term success. We believe that every machine is more than a product -It is a Partnership. From Installation and Training toAfter-Sales Service, we are committed to ensuring our clients' success at every step.

* 51+ Years Of Experience
* 450+ Cities Covered Across India
* 2400+ Successful Installations
* 3 Branches Across India

SecurityLink India is a specialized monthly print and digital media platform based in New Delhi. It focuses on the security, fire safety, automation, and loss prevention industries in India.

- **Physical & Homeland Security:**
  Updates on access control, surveillance, perimeter defense, and public safety infrastructure.
- **Cybersecurity & IoT:**
  Insights into digital transformation, data protection, and connected device security.
- **Fire Safety & Risk Management:**
  Best practices, equipment innovations, and regulatory compliance updates.
- **Emerging Tech:**
  Applications of artificial intelligence, biometrics, and edge computing in modern surveillance.

Sugosha Advisory

Sugosha takes its name from the conch of Nakula, a commander of the Pandava forces in the epic Mahabharata one of the earliest recorded accounts of warfare. Inspired by Sugosha, we are guided by the principles of Dharma (righteousness and integrity) in delivering advisory services to government bodies, industry stakeholders including Foreign OEMs, Indian OEMs, DPSUs, MSMEs and industry associations. Sugosha Advisory redefines aerospace and defence consulting through deep domain expertise and actionable insights across policy, regulatory frameworks, frameworks and procurement ecosystems. We specialize in integrating MSMEs into Tier-1 and OEM supply chains, supported by tailored business intelligence and market-driven insights.

MISSION

Sugosha Advisory, is founded on the principle of providing "Value Based Consulting" to our clients, partnering with them, so as to create an impact on their growth.

TATA STEEL
#WeAlsoMakeTomorrow

TATA WIRON
#StrengtheningTomorrow

Tata Steel Fencing Solutions: Securing Boundaries with Trust and Strength

For over a century, Tata Steel has stood as a symbol of trust, strength, and enduring quality. That legacy finds powerful expression in its fencing offerings—solutions designed not merely to mark boundaries, but to secure assets, protect livelihoods, and stand resilient through time. Backed by Tata Steel's integrated value chain, every fencing product reflects rigorous quality control, dependable raw material sourcing, and advanced manufacturing excellence, resulting in solutions that deliver superior performance and higher longevity.

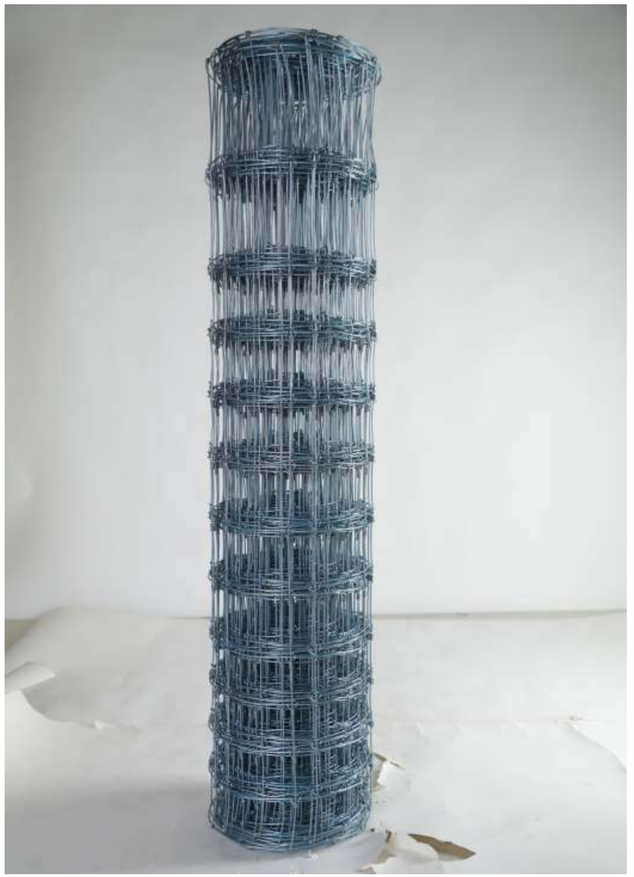

Tata Steel's fencing portfolio is crafted to serve a wide spectrum of needs—from agricultural fields and industrial premises to infrastructure, institutions, and residential spaces. Among its premium offerings, 3D Welded Mesh stands out for its modern appearance, structural strength, and clean architectural appeal. Designed for high visibility without compromising security, it is ideal for spaces that demand both protection and aesthetics. Knotted Fence, on the other hand, offers a robust and reliable solution for large perimeters, especially in agricultural and rural applications, where durability, flexibility, and long-span performance are critical.

A key differentiator across Tata Steel's fencing range is the availability of the Ayush variant. Ayush is a special variant offered across fencing products, engineered with the trademark Tashiel-1000 coating. This advanced coating technology significantly enhances product life, helping the fences withstand corrosion and harsh environmental conditions far better over time. The Ayush variant is also distinguished by its signature blue colour, making it instantly recognizable in the market as a mark of long-lasting performance and Tata Steel assurance.

What makes Tata Steel fencing truly exceptional is the blend of innovation and reliability it brings to every strand, knot, and weld. These are not just fencing solutions—they are long-term investments in peace of mind. Whether the requirement is rugged perimeter protection, premium visual appeal, or dependable all-weather performance, Tata Steel offers solutions that are built to endure.

In a world where security must be matched by sustainability and trust, Tata Steel fencing rises as a category leader—fortified by more than 100 years of expertise, strengthened by technological excellence, and trusted across generations. With every fence line, Tata Steel continues to redefine boundaries—not as limits, but as promises of protection that last.

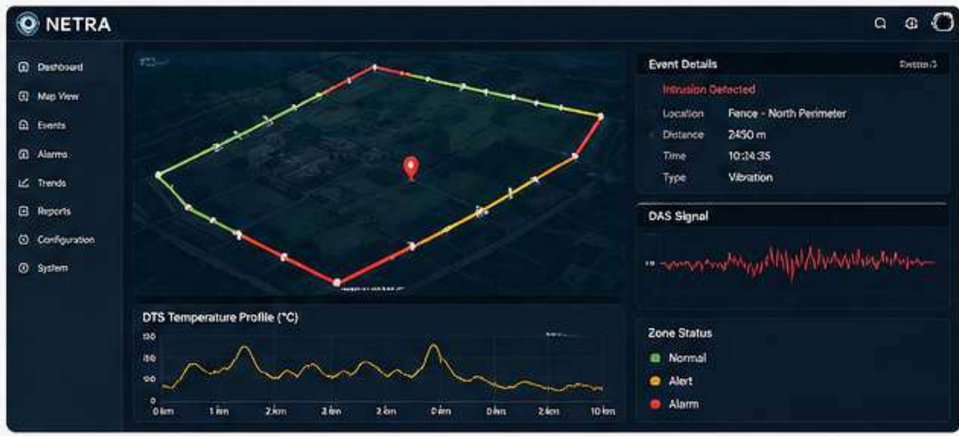

TECHNICA FIBER TECH

Technica Fiber Tech Pvt. Ltd., established in 2019, is an Indian technology company specializing in Optical Fiber as a Sensor solutions using Distributed Temperature Sensing (DTS) and Distributed Acoustic Sensing (DAS). Our systems transform a single optical fibre into thousands of continuous sensing points for real-time monitoring over several kilometres. Key advantages include metre-level event location, EMI/RFI immunity, passive operation, low maintenance and 24×7 monitoring. Our proprietary NETRA software provides intelligent event detection, visualization, alarm management and seamless integration with security systems. At Fence Expo, we showcase AI-enabled fibre optic perimeter intrusion detection solutions capable of detecting fence climbing, cutting, digging and other intrusion attempts with high accuracy, making them ideal for defence, airports, critical infrastructure and industrial facilities.

Y GROUP - Y Mesh & Metal Products manufactures high-precision expanded metal sheets and structural mesh systems for industrial, architectural, and security applications. Backed by advanced fabrication technologies, the company delivers custom-engineered mesh solutions including peripheral fencing, anti-climb security barriers, building envelopes, and interior panels engineered for high strength, structural integrity, and long-term durability across infrastructure and commercial developments.
